MAKE PILS OUT OF
REAL DATA?

Stand-based
vector data

Segments

pixel-based estimates
raster data

How much of the
study area do
the data cover?

THIS SHOULD BE
COMBINED WITH
THE "SOURCES" STEP?

IS THIS REALLY
INFORMATIVE?

THIS IS IMPORTANT!

TOO SPACIOUS NOW, NEEDS TO BE CONDENSED

HOW ARE PRIORITIES DISTRIBUTED OVER THE LANDSCAPE AND HOW DO PATTERNS DIFFER?

HOW MUCH DO THE SPATIAL LOCATIONS OF TOP PRIORITIES OVERLAP?

HOW WELL DO THE TOP-PRIORITY AREAS CAPTURE THE OCCURRENCE LEVELS OF FOREST TYPES?

WHAT ARE THE PRIORITY DISTRIBUTIONS FOR THE INDEPENDENT VALIDATION DATA SETS?

CONCLUSIONS ??

NOT NEEDED,
